RME Services Ltd

- From our head-office in Farnham, Surrey, RME provides contracting services in the reactive, planned, exhibition and project sectors within London and the South-East. Our primary service delivery areas are Building, Mechanical, Electrical, and plumbing works. Incorporated in 1996, RME continues to work for several primary government and private sector clients carrying out a wide range of work, some of which is listed on the left of page.
- RME offer a complete turnkey service from design to completion, utilising our in-house team of directly employed labour and approved sub-contractors. We are Quality assured to BS EN ISO 9001, Environmentally accredited to BS EN ISO 14001 and Health & Safety accredited to ISO 45001. We hold a wide range of accreditations such as NICEIC, CHAS, Gas Safe, FORS and Constructionline.
- Through constant review and internal investment, we are a forward-thinking company that embraces technology, looks after its employees and is conscious of our effect on the environment.

Project Work

We are equipped and experienced to carry out project work over a wide range of disciplines. Whether it be an office refurbishment requiring a range of multi-trade works, or a more technical specialist sector of our business, we can offer advice and a complete turnkey solution from conception to completion.

Our project works are obtained through several procurement avenues, ranging from JCT competitive tendering processes, to partnering and negotiated contracts.

Reactive Work

We have a dedicated reactive works team that provide a fast response to our contracted clients. Our vehicle tracking system ensures that our tradesmen are deployed as efficiently as possible reducing unnecessary travelling and speeding up response times.

Measured Term Contracts (MTC)

We have a wide range of experience in measured term contracting. Whether a contract is based upon a bespoke client schedule of rates, PSA or NSR, we will adapt to our client's requirements.

Exhibitions

RME carry out the installation of temporary M&E services for such exhibitions as the Farnborough International Airshow. We have over a million pounds of distribution equipment in stock at any one time ready to deploy.

RME DC (Our bespoke works management & reporting system)

We have a bespoke SQL driven database solution that is utilised to manage employee workflow, provide financial and client KPI reporting, as well as providing dashboard information and actions for our in-house personnel.
